Matthew Tedunjaiye | Full-Stack Developer

Email: tedunjaiyem@gmail.com | Portfolio: codewithted.vercel.app | **GitHub:** github.com/tobyt50 | **LinkedIn:** linkedin.com/in/tobyt50/ | **Tel:** +234 704 601 5410

Professional Summary

Full-stack developer experienced in building scalable web platforms, TypeScript-driven architectures, and cloud deployment. Skilled in building real-time, multi-role systems with responsive UIs and robust backends.

Technical Skills

- **Frontend:** React (Vite), TypeScript, Tailwind CSS, Zustand, Zod, Axios, React Router, Framer Motion
- **Backend:** Node.js, Express, Python, TypeScript, Prisma, PostgreSQL, Socket.IO, JWT, bcryptjs
- **Cloud & DevOps:** Vercel, Render, Neon (PostgreSQL host), iDrive e2 (S3-compatible storage), Stripe & Paystack (payments), SendGrid (email delivery), Git, GitHub
- **Others:** Cloudinary, REST APIs, Responsive Design, UI/UX Optimization, Figma, Adobe XD, Canva

Featured Projects:

FlowSplit - Automated Smart Money Routing Platform | flowsplit.vercel.app

Tech: TypeScript, Next.js (React), Tailwind CSS, NestJS, Prisma, PostgreSQL, RabbitMQ, Stripe, Paystack API, Python

- Built a **production-grade fintech platform** for automatically routing user income into smart wallets using configurable rules.
- Developed a **Next.js + TypeScript frontend** for responsive financial dashboards.
- Engineered **backend microservices with NestJS and Prisma**, backed by PostgreSQL and event-driven workflows via RabbitMQ.
- Integrated **Stripe for virtual card issuance** and **Paystack for deposits and payouts**.
- Implemented **Python-based AI services** to generate money-routing insights and optimize automated allocation strategies.

PPALink - Professional Hiring Platform | ppalink.vercel.app

Tech: TypeScript, React (Vite), Zustand, Zod, Prisma, Express, PostgreSQL, Stripe, iDrive e2, SendGrid

- Developed a **TypeScript** hiring platform with **Prisma**, **Zustand**, and **Tailwind CSS**.
- Built modular **REST APIs** and real-time, responsive interfaces.
- Integrated **Stripe** for payments and **SendGrid** for automated emails.

Hava - Real Estate Platform | havaapp.vercel.app

Tech: JavaScript, React, Node.js, Express, PostgreSQL, Cloudinary, Socket.IO, Tailwind CSS

- Developed a **multi-role** real estate platform enabling real-time chat between agents and clients.
- Built admin dashboards for listing moderation, **analytics**, and role-based access control.
- Deployed via **Vercel** and **Render**, supporting over 100 concurrent real-time users.

Professional Experience

Freelance Developer | Remote | *May 2024 - Present*

- Delivered full-stack web apps for clients using modern **JavaScript/TypeScript** stacks.
- Built reusable **React** components, **RESTful APIs**, and **PostgreSQL** data models.

Tertiary Education Trust Fund | Abuja, Nigeria | *Oct 2024 - Aug 2025*
HR Information Systems Intern

- Maintained HR information systems and improved documentation efficiency.
- Supported onboarding and engagement tracking for new employees.

Education

B.Tech. Computer Science, Federal University of Technology Akure (2018 - 2023)
Certifications: Cisco Introduction to Cybersecurity (2025); Graduate Member, Nigerian Institute of Management (2025)
